We will listen to [Music and Talent joining forces to repair a damaged Creation.](#)

From Saint Francis' Canticle of the Creatures to the modern tunes of singers and musicians, encouraging all to safeguard our Common Home, a response to the urgent cries of the poor, and an embrace of ecological conversion to which the Pope calls us in his Encyclical. The testimony of a member of the Laudato si' Movement: music can awaken consciences from the slumber of indifference. Our celebration includes insights from the second international summer school *The Economy of Francesco* and how music and sanctuary sustained the process of conversion towards a more just world in *Geschwisterlichkeit* and solidarity. Come and enjoy!
