### Forest Man

The story of Jadav "Molai" Payeng

Every Earth Day, Catholics from around the world come together to take action for creation. The 50th anniversary of Earth Day, 22 April 2020, looked a lot different than all of us expected. But as an enduring symbol of Spirit-filled hope, Catholics worldwide still united to raise our voices for creation. In 2021, we will again come together with the Earth Day Network and transform this annual celebration into a launchpad for even greater action.
